Modular exhibit systems and displays provide exhibitors with sophisticated, custom-looking exhibits that stand the test of time, and can adapt and evolve from show to show. Using standardized components as building blocks, modular displays can often be reconfigured to fit multiple size spaces and customized to fit unique needs.

Modular displays are used in tradeshow and events, and are often used as permanent displays in museums and educational environments and in retail settings.

Many of our modular exhibit systems combine aluminum extrusion frames with push-fit fabric graphics. USA-made modular exhibit systems are created by expert welding and metal-working technicians. Graphics are printed with the latest state-of-the-art large format printers, and all graphics are produced and finished by hand by highly-skilled sewers in the USA.

Our variety of modular display systems offer displays of many types and sizes, from banners and light boxes to table-top displays, through to 10' and 20' inline exhibit kits, as well as 20' by 20' island exhibit kits. Display accent pieces and accessories such as charging stations, counters, multi-media kiosks, lighting and more help add functionality and the final finishing touches.

orbital express™ truss | INTRODUCTION

ORBITAL EXPRESS TRUSS

The bold, contemporary, industrial look of Orbital Express™ Truss exhibits dominates the show floor.

The Orbital Express Truss series is a collection of reconfigurable exhibit backwalls, islands and counters that feature a fixed number of parts and connectors. NO TOOLS are required for assembly; 20' x 20' and 10' x 20' inline kits transition into smaller size exhibits, counters and more.

The versatility and value of the Orbital Express Truss system is unmatched! Set-up and installation of Orbital Express Truss exhibits, backwalls and accessories is easy – simply twist & lock is all you have to do. All Orbital Express Truss display pieces are quality crafted and manufactured in the USA. All fabric and UV-panel graphics are produced in the USA, printed on state-of-the-art, G7 color certified printers, and are finished by hand.

With endless designs and options to choose from, you are certain to find a solution that fits your needs. You can also easily customize your own Orbital Express Truss exhibit and make it completely unique.
